

IDEON/Edison Park

Lund

Edison Park, near Ideon in northern Lund, is attractive for growing companies in medicine, chemistry, electronics and IT. The area opens up opportunities for small growth companies as well as large, established companies in a creative and inspiring setting.

A few well-known companies with offices in Edison Park include Qualcomm, Axis AB, Huawei, Xdin and Purac AB. The vision is to offer a hub for creative, innovative companies in a setting with a variety of services and added value available nearby.

For Edison Park, we supplied steel profiles from both SP 35000 and SP 76500. The property owner is Fastighets AB Briggen in Öresund.

Door and wall partitions:	Steel profile systems SP 35000 and SP 76500
Built in:	2007
Architect:	Liljewall Architects
Construction company:	Rekab Entreprenad AB

Possibilities that provide added value

Our steel profile systems are developed to meet high requirements for design, safety and energy efficiency. To optimize the selection and use of our profiles, we provide manufacturers, architects and builders with full support in the construction process. At any time, you can find advice and guidance on product choice, construction, and the latest profile technology. Our construction, preparation and calculation system - KBK, will provide you valuable support throughout the process. Contact us and we will help you!

Details that create possibilities:

- Extra narrow and wide profiles
- Profiles adapted for module locks
- Arches, round windows and arched doors
- Finger trap gasket
- Profiles for door leaves and doorframes with grooves for weather stripping
